

## **Bil-Jax**

### ***The broadest product line in the industry***

Our tent flooring is adaptable and can accommodate the most difficult, multi-terrain challenges. Hills, terraces, and even swimming pools are not a problem for this elevated tent flooring system.

The slide-and-connect cassette flooring system requires fewer pieces and parts than other similar types of systems on the market today. That also means fewer tools and quicker assembly and teardown time.

Get to know the simplest, fastest, safest, and most adaptable tent flooring system in the industry. The Bil-Jax TF2100 Tent Flooring Systems helps you work more efficiently, and provides substantial labor savings. The first patented engineered tent floor system for clearspan tents. Engineered to seamlessly integrate with the industry's most popular tents: Anchor, Eureka, Liri, Losberger, Roder, Shelter and more. Our components incorporate the tent structure directly with the floor. The TF2100 is proven to save time and money and can accommodate various elevations and terrains. We help you place a tent on any landscape.
